

How does sponsorship work?

- You, together with our coordinator, agree on a particular sponsored child, getting information about her or his name, age, background, aspirations, and school to attend.
- A sponsorship agreement captures our and your responsibilities in line with all applicable privacy and child protection regulations.
- You receive in regular intervals letters or photos from your child as well as academic report cards through our secure website which protects privacy.
- You may communicate back to your child through safe channels.
- You pay your recurring monthly sponsorship fee through bank transfer monthly or in sums 1-2 times per year.
- Your charitable giving may qualify for tax relief in many countries. Ask for details.

The Giraffe Project

- We are a UK-registered charity, providing education for children who live in the slums of Nairobi, Kenya.
- Our founders are international educators, our board of all-volunteer directors comes from across Europe..

Our mission: Helping children break the poverty cycle

- Our mission is to provide a first-class education for the very deprived children in the Nairobi slums, from primary school through college or university.
- Our aim is for these children to break the poverty cycle and become established and productive citizens.

Our approach

- We sponsor over 400 pupils at three partner schools that provide a wonderful education and the pastoral care they need.
- We take on projects together with our Kenyan staff and trusted local partners.
- We create better learning environments for our students and the community, such as building classrooms, setting up labs and libraries and providing computer equipment.
- We have personally known every local partner for many years, making sure your money is used you and we intended.
